The Operations and Dynamics of a Strike – Worker's Inquiry, and Autonomous People's Participation in the Economic Manuscripts which then changes into the Gotha, Paris Commune and even finally Party Politics

By Karl Marx

Table of Contents

I. Working Class Sculpting of a Person
II. Gotha is the Programme for a Liberation
III. Group Dynamics of a Person
IV. Speeches
V. Formats of Pamphlets for all Questions
VI. Politicise Everything.

I. I mean the Gotha (Marx’s speech to the German Working Class)

I argue for the miracle of the Gotha, that the people participate in democracy and also participate on my leadership and its relevance for my life and freedoms. I mean express democracy as a

leader – a leader should only be qualitative and quantitative about the party.

II. Paris Commune and its Representation of the People – how will the leader lead the people, is he an able leader?

I mean in fact that the Paris Commune is what the party must lead and

do. But as a trade union party.

I also speak about expressions of the people in the leader – he must express the people, and especially the working class.

III. Applying this to Democratic Dynamics

I mean the working class is always in a

strike and always striking and working for a strike.

I want the leader to imitate this in militant life. He should be a militant who is discussing the operations and dynamics of a strike.

IV. Finally Speeches Keep speaking and keep talking, democratic institutions of the state

and party is there since in fact the Iroquis left to form a Greek state and gens and then forward the monarchies and the modern democratic state – the state and institutions of the party are part of this history, I mean it is like tribal chieftanship but in fact a state of the people, that state then is class dictatorship for my vote.

It is a class dictatorship well judged hopefully – the state is finally insitutions of the people and is needed to extract a surplus value for the capitalists but in Communism it protests this a lot.

I mean in a speech to German Working Classes – all of this is how the state loots the workers, and how the democratic people will

express the leader more and more – it means to be free finally.

Engels edit this fully and at length.
